

Projects '24

Primary education for vulnerable children - Zambia

We would like to support 30 children in Gateway primary school with school fees. Most of these children are orphaned and without support. They would not go to school at all. The cost to support one child a year is USD 150.

Contact Details: Jeanvion Banza, Koti ni Eden School, Gateway - banza.j@fce.org.za

Training of 100 School Principals – Ethiopia

We were asked by a church in Ethiopia to train school principals in the understanding of Christ-centered education. We need to train 100 school principals in 2 sessions of 5 days in Ethiopia. We believe it can make a great impact to secure the next generation in Christ likeness.

Contact Details: Dr Piet du Toit, Haggai Centre for Teacher Development - dutoit.p@fce.org.za

Classrooms for Amazing Grace - South Sudan

Most of the children in villages around Amazing Grace community do not have an opportunity to go to school. Alumni of FCE have started a school for 100 children under trees and took the initiative to start building 4 Classrooms. Total cost of Classrooms and Dormitories is USD 18 350.

Contact Details: Sulene van Schalkwyk and Simon Lojana (Amazing Grace Community) - vanschalkwyk.s@fce.org.za or lojana.simon.m@gmail.com

Elpela building Project- Zambia

Elpela is a new FCE development. They are now busy with the second phase of their buildings and we would like to see them setting up this facility for youth leaders training through sport, camp and arts.

Contact Details: Etienne Smit, Elpela, Zambia - smit.e@fce.org.za

Morgenstar Mission restoration - Zimbabwe

The Morgenstar mission initiative from 1899 has played a critical role in the educational destiny of Zimbabwe. We would like to support them with prayer, training and renovation teams as an encouragement to their renewal.

Contact Details: Carel Els, FCE Zimbabwe - els.c@fce.org.za

Media Project – FCE Global

For marketing purposes we would like to develop a short 3-5 min video for each of our 7 discipleship training centres that explain its purpose and vision. A team of 2 volunteers is going around to take the footage and to edit the videos.

Contact Details: Daniel Maisenbacher, Training & Support, Pringle Bay - maisenbacher.d@fce.org.za

Clean water Project - Zambia

We would like to drill two boreholes to supply fresh water to the training centre. The current river is contaminated as more people settle in the catchment area.

Contact Details: Boet Pretorius, FCE Kalungu - pretorius.b@fce.org.za

Bible 23 Project - FCE Global

Growing discipleship movements throughout Africa that are dedicated to grounding people in the Word of God, need Bibles in local African Languages. Support a disciple-maker with a Bible at 10 Us.

Contact Details: Annalize Pretorius, FCE Global - pretorius.a@fce.org.za

Solar Project - Malawi

We would like to install backup power for the Malawi discipleship training centre. We need to continue with our work and training in times of load shedding or electricity failure, which occurs many times through the year in Malawi. We need the funds and the people to advise and install this project.

Contact Details: Alburt Ferreira, FCE Malawi - ferreira.a@fce.org.za

Clearing of alien vegetation - South Africa

Our property in Pringle Bay, South Africa is covered with a lot of alien vegetation. By law we are obligate to cut down, pullout the hundreds of thousands of trees and also to remove the green wast afterwards so that it doesn't become a fire hazard.

Contact Details: Francois Pretorius, Training & Support, Pringle Bay - pretorius.f@fce.org.za

Reliable electricity - Zambia

The Koti ni Eden farm has a big need for constant, reliable electricity to freeze and store their stock of (chicken) meat for their customers. The best option would be a good reliable solar system, as sun is plenty available in Zambia! A 5kW-system would be sufficient to run the freezers and serve a small household.
